

C300

SS Body and Electrodes Conductivity Sensors with Temperature Sensor (Pt1000) included

Objednací číslo	Materiál	Kategorie	product.detail.attribute.family	Série	product.detail.attribute.Description	product.d Flow Rate
C300.001.TCCK	FLS Measurement Instrumentation	FLS systém pro měření a regulaci	ph / ORP / pressure-level Electrodes	Potenciometry a indukční senzory vodivosti	Simplified Cell constant	0.55 [CS:S [CS:Simbo (18,2M[CS: 5K[CS:Sim
C300.001TC	FLS Measurement Instrumentation	FLS systém pro měření a regulaci	ph / ORP / pressure-level Electrodes	Potenciometry a indukční senzory vodivosti	-	0.55 [CS:S [CS:Simbo (18,2M[CS: 5K[CS:Sim
C300.10TC	FLS Measurement Instrumentation	FLS systém pro měření a regulaci	ph / ORP / pressure-level Electrodes	Potenciometry a indukční senzory vodivosti	-	10 [CS:Sim [CS:Simbo

C300

- APPLICATIONS • Agriculture and fertilizing system • Water treatment • Foods industry • Aquaculture • Ultrapure water application: production and use MAIN FEATURES • Stainless steel measuring surfaces • Considerable ratio performance/price • Temperature sensor included • Wide range of cell constant • Rugged sensor body in PP (C100) • Sensor in SS completely (C300) • C300.001TCCK with certified cell constant
